

Lyrics for Folk Up North Song

***Oh the seas are rough and the wind blows strong
As we sail to land, we can sing this song
See the hills, the mountains high
They touch the raindrops in the sky***

*The sun will shine, just not today
We'll sail and we'll sail and we'll sail away
The sun will shine, just not today
We'll sail and we'll sail and we'll sail away*

***Oh the seas are rough and the wind blows strong
As we sail to land, we can sing this song
See the hills, the mountains high
They touch the raindrops in the sky***

*I'll find a fish, just not today,
We'll sail and we'll sail and we'll sail away
I'll find a fish, just not today,
We'll sail and we'll sail and we'll sail away*

***Oh the seas are rough and the wind blows strong
As we sail to land, we can sing this song
See the hills, the mountains high
They touch the raindrops in the sky***

*We'll milk a cow, just not today,
We'll sail and we'll sail and we'll sail away
We'll milk a cow, just not today,
We'll sail and we'll sail and we'll sail away*

***Oh the seas are rough and the wind blows strong
As we sail to land, we can sing this song
See the hills, the mountains high
They touch the raindrops in the sky***
